JOURNAL

OF

AGRICULTURE.

VOLUME X.

(January–June, 1915.)

GENERAL INDEX.

A.

Acacia, 395.
Ageratums, 184.
Agriculture—
  Abroad, 488.
  Catechism of practical, 59, 155, 260, 367, 465, 557.
  Constructive: economic promotion of soil-fertility, 208.
  International Institute of, 489.
Agrostis minutiflora, 14.
Ailments of sheep, 460.
All-steel silo at Moumahaki, 9.
Answers to correspondents, 83, 187, 289, 391, 458, 577.
Apiary, the (monthly notes), 73, 177, 277, 382, 479, 568.
Apiculture—
  Equipment, 178.
  Extracting, 177.
  Improved-quality honey, 382.
  Introducing queen-cells to colonies with a laying queen, 74.
  Management of colonies during the honey-flow, 73.
  Queen-excluders, 73.
  Robber-bees, 278.
  Swarms, 278.
  Unmated queens, 74.
  Wintering, 277.
Apple—
  Culture of, 396.
  Export trade, 81.
  The Jonathan, 332.
  Varieties, 583.
Apples in cold store at New York, 288.
Argentine—
  Horses in London, 58.
  Wheat-exportation from, 448.
Artichokes, 187.
Ashes of hedge-trimmings a source of potash, 360.
Asiatic star-thistle seed, 443.
Asparagus, 75, 385, 482.
Auckland Exhibition grass-plots, 12.
Autumn sowing of lucerne, 105.
Awnless brome-grass, 13.
Ayrshires with certificate of record, 539.

B.

Bacon and ham markets, British, 81.
Basic superphosphate, 90.
Bee-culture, 293 (see also Apiculture).
Beekeepers and the Belgian Fund, 90.
Beekeeping, 463 (see also Apiculture).
Bees—
  Dying, 290.
  Robbing, 278.
  Safe wintering, 277.
Berkshire pigs at Moumahaki and Ruakura, 231.
Black aphis, 578.
Blackberries, their control and eradication, 10.
Blackberry-pest, the, 110, 395.
Black-spot or scab, 166.
Black-wattle, transplanting, 462.
Blight—
  Of peach-tree, 87.
  On strawberries, 89.
"Blown" cows, 88.
Blue-tussock, 13.
Bones, cows chewing, 290.
Bordeaux mixture, 188.
Bots in horses, 289.
Boyd's clover, 19.

Breeding-ewes, forage for, 582.
Brine solution for milking-machines, 54.
British bacon and ham markets, 81.
Broad beans, 282.
Bromus Schraderi, 14.
Brown Swiss cattle, 20.
Bulbs, 77, 284.
Bulls for dairy purposes, 227, 361.
Butter—
  And eggs from San Francisco, 576.
  Californian market, 576.
  New Zealand, in Oregon, 288.
Butter-fat record, the world's, 542.
Buttermaking, 293.

C.

Cabbages, 281, 482, 569.
Calf-rearing, 577.
  At Ruakura, 231.
Californian—
  Butter-market, 576.
  Table-poultry market, 478.
Californian thistle, 417.
  Description of seed, 547.
  Eradication, 461.
  Eradication with goats, 290.
Canada, wheat-growing in, 390.
Canadian—
  Import requirements, 82.
  Tariff amendments, 390.
  Thistle, inoculation of, with rust blight, 461.
Canary-grass, 13.
Carnation cuttings, 183.
Carnations, 78.
Carrots, 483.
  Growing of, 189.
Catechism of practical agriculture, 59, 155, 260, 367, 465, 557.
Cattle, a lick for, 87.
Cattle-breeders' association in Denmark, 128.
Cattle-proof hedge, 190.
Cauliflowers, 280, 482, 570.
Celery, 181, 483.
Certificates in spraying and pruning, 41.
Champion cow, world's, 128.
Cherry-disease, 86.
Chewing's fescue, 18.
Chou moellier as drought-resister, 9.
Chrysanthemums, 184, 284.
Clay lands, treatment of, for fruit-culture, 236.
Clover—
  A new variety, 417.
  For silage, 226.
Clovers—
  Boyd's clover, 19.
  Lotus angustissimus, 19.
  Lotus corniculatus, 19.
  Lotus major, 19.
  Lucerne, 18.
  Webb's Giant white clover, 18.
  White lodino, 18, 432.
Cocksfoot, 16.
Codlin-moth, 164.
Colds in poultry, 478.
Commercial intelligence, 81, 186, 286, 390, 576.
Common sowthistle: description of seed, 552.
Constructive agriculture, 208.
Control and utilization of sand areas, 203.
Co-operative field trials of lucerne in South Island, 251.
Cow—
  Affected with disease, 579.
  Trouble with a, 578.
Cow-grass and lucerne seed, 464.
Cows—
  Bloating on lucerne, 414.
  Chewing bones, 290.
  Fodder crops for, 85.
  Gestation of, 88.
  Treatment for blown, 88.
Cow-testing—
  Association (Ferndale), 509.
  Its value recognized, 147.
  Value of, 126.
Crawshaw, Captain Mervyn, 80.
Crested dogstail, 17.
Crops for silage, 222.
Cultivation—
  Of orchard, 163.
  Of tomato under glass, 151.
Cuming, C. E., resignation of, 418.
Currants, 573.
  Red and white, 182.

D.

Dairy bulls, 227, 361.
Dairy cows—
  Green feed for, 463.
  Maize as green feed for, 392.
  Our C.O.R. purebred stock, 445.
Dairying in Switzerland, 20, 140, 242.
Danthonia pilosa, 320.
Dehorning milking-cows, 580.
Delays in unloading produce at port of London, 186.
Disease—
  Affecting potatoes, 190.
  Of cherry, 86.
  Of citrus fruit, introduction of, into U.S.A., 58.
  Of oak-tree, 86.
Ditching by machinery, 55.
Docks, description of seeds, 101.
Dodder-seed, 441.
Dominion's exports to Britain, 91, 192, 295, 397, 491, 585.
Dougherty apple, 451.
Drainage: ditching by machinery, 55.
Dry farming at Ruakura, 335.
Duck-feeding, 460.
Ducklings, trouble with, 291.

E.

Ear trouble of stock, 462.
Egg-laying competitions, 536.
Egg-production at Ruakura, 19.
Eggs—
  And butter from San Francisco, 576.
  Size of, decreasing, 69.
English-trefoil seed, 440.
Ensilage: improved form of the all-steel silo, 148.
Eradication—
  Of blackberries, 10.
  Of fern, 190.
Eragrostis (Poa) Brownii, 16.
Establishing and managing permanent pasture, 29.
European methods of potato-culture, 488.
Exhibition grass-plots, Auckland, 12.
Experiments on soils, 410.
Export—
  Of fruit, 44.
  Of honey, 240.
  Of stock, 94, 195, 298, 400, 494, 588.
Exports of the Dominion to Britain, 91, 192, 294, 397, 491, 585.
Extracting honey, 177.

F.

Failure of peach crop, 293.
Farm, the, monthly notes on the work of, 63, 159, 264, 370, 468, 560.
Fats in food, 158.
Feeding of sheep-dogs, 429.
Fencing, 530.
Fern, eradication of, 190.
Field sowthistle: description of seed, 554.
Fiorin, 14.
Flax-grub, the, 1.
Flies: borax to prevent breeding, 152.
Flocks, purebred: position of the different breeds in New Zealand, 26.
Flower-culture, 77, 183, 284, 386, 484, 574.
Fodder crops, 84, 190.
  For cows, 85.
Food, fats in, 158.
Foot-rot in sheep, 459.
Forage crops—
  Mustard, 33.
  For breeding-ewes, 582.
Foundation-making, 460.
French beans, 76.
Fruit—
  Experiment in grafting plum on peach tree, 545.
  Export of, 44.
  Good example for industry from Nelson Province, 129.
  Harvesting the crop, 47.
  Imports into New Zealand, 196.
  Packing and grading certificates, 545.
Fruit-culture: the treatment of clay lands, 236.
Fruit-fly, the, 456.
Fruitgrowing, 583.
  In the Motueka district, 19.
Fruit-trees, interpollination of, 232, 333.

G.

Garden, the, monthly notes on the work of, 75, 180, 279, 383, 480, 569.
Geraniums, 184.
Gestation of cows, 88.
Giant prune, the, 85.
Gilbey, Sir Walter, Bart., 53.
Glasshouse-construction, 426.
Goats as Californian-thistle eradicators, 290.
Gooseberries, 77, 573.
Gooseberry-bushes, 183.
Goose-grass seed, 214.
Grading fruit—
  Certificates in, 545.
  For export, 431.
Grading returns, hemp and tow, 92, 193, 296, 398, 492, 586.
Grafting: overgrafting, 422.
Grain in America, 451.
Grape-vines under glass, 188.
Grass for cricket-ground, 191.
Grasses—
  Native, 7.
  Of recognized first-class value, 16.
  Of secondary pasture value but having a certain use, 14.
  Of value in certain situations but dangerous to use indiscriminately and without knowledge of their habits, 13.
  Useless under almost any condition 13.
Grass-grub at Ruakura, 537.
Grassing—
  Bush land, 324.
  Rough places, 320.
Grass-plots, Auckland Exhibition, 12.
Grass-seed outlook, 284.
Grazing lucerne, 342.
Green feed—
  For dairy cows, 463.
  Maize for dairy cows, 392.
Green-manuring, 118, 420.
  At Ruakura, 263.
  Experiment at Ruakura, 542.
Grow more wheat, 259.
Grub: the flax-grub, 1.
Gum-trees, 394.

H.

Hair-disease of horse, 395.
Hair-grass, 214.
Ham and bacon markets, British, 81.
Hard fescue, 18.

Hares in orchard, 290.
Harvesting the fruit crop, 47.
Hawthorn-growing, 394.
Hedge, cattle-proof, 190.
Hedges, 189, 525.
Hemp—
  And tow grading returns, 92, 193, 296, 398, 492, 586.
  Industry, the, 79, 185, 285, 387, 487.
Hides, tanning, 580.
Hill, W. S., resignation of, 239.
Hoary cress, 415.
Holstein—
  Bulls, 228, 361.
  Cow establishes new milk-record, 128.
Honey—
  Colonial exhibit at Grocery Exhibition, Royal Agricultural Hall, London, 576.
  For export: storing and grading arrangements, 240.
  Granulation of, 86.
  Preparing, for market, 526.
Hoofs cracked, 394.
Hoof-trouble of cow, 396.
Hop-growing in Motueka district, 19.
Horse—
  Ailment of, 581, 582.
  Trouble with a, 579.
Horse-flesh in Germany, 58.
Horses—
  Engaged in the war, 31.
  For military purposes, 401.
  For military purposes from U.S.A., 537.
House-fly: borax to prevent breeding, 152.

I.

Identification of seeds, 95, 214, 337, 438, 547.
Import requirements, Canadian, 82.
Insect pests of orchard, 473.
International Institute of Agriculture, 489.
Interpollination of fruit-trees, 232, 333.
Iresines, 184.
Irish yew and Irish juniper, 459.
Irrigation in New South Wales, 520.
Italian rye-grass, 16.

J.

Jersey bulls, 229, 363.
Jerusalem artichokes, 483.
Jonathan apple, 332.

K.

Kentucky blue-grass, 18.
Keeled brome-grass, 13.

L.

Land campaign, the, 263.
Lane's Prince Albert apple, 450.
Lawes and Gilbert Commemoration Laboratory, 449.
Lawns, 283.
Laying out an orchard, 187.
Laying-hens, trouble with, 392.
Leech, 166.
Leeks, 181.
Lettuce, 182, 281, 482, 571.
Lice—
  Infesting stock, 289.
  On pigs, 87.
Lick for cattle, 87.
Lime: applying burnt lime, 577.
Lime-sulphur spray, 86.
Linseed-oil cake, 116.
Lodino white clover, 18.
Loganberries, 77, 183.
  Culture of, 188.
London—
  Delays in unloading produce at port of, 186.
  Market values, 584.
Lotus angustissimus, 19.
Lotus corniculatus, 19.
Lotus major, 19.
  And yarrow-seed, 84.
Lucerne, 18, 393, 458, 512, 578.
  Autumn sowing of, 105.
  As drought-resister, 9, 105.
  At Moumahaki, 152, 226.
  At Tauranga, 359.
  Co-operative field trials in South Island, 251.
  Cows bloating on, 414.
  Experience, 430.
  For silage, 226.
  Grazing of, 342.
  Its value during a dry season, 106.
  Its value to the poultry-keeper, 175.
  Some Ruakura experience, 221.
  Strengthening a field of, 413.
Lucerne-hay, shed for, 580.
Lucerne-seed, 438, 464.
Lysol for scour, 464.

M.

McConnell, Primrose, resignation of, 284.
Machinery for ditching, 55.
Maggot-fly, the, 83.
Maize—
  As green feed for dairy cows, 392.
  For silage, 225.
  Harvesting of, for silage, 330.
Mammitis affecting milking-heifer, 291.
Management of permanent pasture, 29.
Mangel crop at Ruakura, 345, 542.
Manures, manufacture of, 463.
Market values, London, 584.

Marketing of fruit: requirements of the English trade, 43.
Marton plots, 518.
Meadow-rice-grass, 13.
Meadow-fescue, 18.
Meadow-foxtail, 17, 341.
Meat: world's supply and demand, 286.
Mediterranean-rocket seed, 443.
Melilotus alba (sweet clover), 423.
Mildew on roses, 86.
Military horses, 401.
Milking-cows, dehorning, 580.
Milking-machines, brine solution for, 54.
Milk-record, world's, 128.
Millets for silage, 225.
Motor for agricultural purposes, 579.
Motor-plough, 138.
Moumahaki lucerne, 152.
Movable pens for rearing pigs in, 488.
Mustard, 32.

N.

Native grasses, 7.
Navy, supplies for, 186.
Nectarines, 511.
Nelson Province, fruitgrowing in, 129.
New South Wales, irrigation in, 520.
New variety of wheat, 9.
New Zealand trade with San Francisco and Vancouver, 93, 194, 297, 399, 493, 587.
Nipplewort: description of seed, 554.

O.

Oak-tree, disease of, 86.
Oat—
  And wheat crops at Weraroa, 110.
  Variety trials, 437.
Oil cake, linseed, 116.
Onion-culture, 189, 462.
Onions, 76, 281, 572.
Ontario Agricultural College: assistance to students by Massey Estate, 9.
Orchard—
  Land, 463.
  Laying out an, 187.
  Monthly notes on the work of the, 65, 163, 267, 373, 471, 563.
  Pruning, 452.
  The farmer's, 321.
  Trouble with hares in, 290.
Overgrafting, 422.

P.

Pacific brome-grass, 13.
Packing and marketing of fruit: requirements of the English trade, 43.
Packing fruit, certificates in, 545.
Panama Pacific Exposition, New Zealand at, 294, 490.
Parsnips, 483.
Paspalum digitaria, 15.
Paspalum dilatatum, 17, 355.
Paspalum distichum, 15.
Passion-fruit culture, 191.
Pastures—
  Establishment and management of the permanent pasture, 29.
  Renovating old, 391.
Peach crop, failure of, 293.
Peach-spraying, 472.
Peach-tree—
  Blight of, 87.
  Pruning, 376.
Pear-cultivation, 89.
Pear-stock *v.* quince-stock, 111.
Peas, 483.
Peculiar development of potato, 358.
Pennyroyal, 416.
Penstemons, 184.
Perennial rye-grass, 16.
Phalaris arundinacea, 15.
Phalaris bulbosa, 15.
Phosphate rock in New Zealand, 495.
Picking and grading fruit for export, 431.
Pigs—
  Lice affecting, 87.
  Rearing in movable pens, 488.
Pinus insignis, 395.
Pinus muricata, 83.
Plantation, trees suitable for, 85.
Plants, replacement of, 434.
Poa compressa, 15.
Poa nemoralis, 17.
Poa pratensis, 18.
Poa trivialis, 17.
Poisoning—
  Crickets, rabbits, and house-flies, 459.
  Of stock by rangiora, 207.
Potash—
  Ashes of hedge-trimmings a source of, 360.
  Waste of, 449.
Potato—
  Historical sketch of, 357.
  Peculiar development of, 358.
Potato-culture: European methods, 488.
Potato-disease, 190, 292.
  Dangerous, 325.
Potatoes—
  For seed, 583.
  On test at Ruakura, 54.
Potato-growing, 88, 292.
Poultry—
  An incubation trouble, 70.
  Californian market for table-birds, 478.
  Cheapening the food-supply, 72.
  Colds, 478.
  Corns, 71.
  Culling, 173, 270.
  Size of eggs decreasing, 69.
  The pullet, 68.
  Worms, 477.
Poultry-keeping and lucerne, 175.

Poultry-yard, the, monthly notes on, 68, 170, 270, 378, 475, 567.
Prairie-grass, 313.
And Western Wolths, 8.
At Ruakura, 226.
"Moumahaki No. 6" at Ruakura, 318.
Seed, 335.
Prickly sowthistle: description of seed, 554.
Pruning—
Fruit-trees, 564.
Roses, 574.
Summer pruning, 164.
The orchard, 452.
The peach, 376.
Purebred flocks: position of the different breeds in New Zealand, 26.

Q.

Quarantine stock in, 94, 195, 298, 400, 494, 588.
Queen, the, taking from the hive, 460.
Quince-stock *v.* pear-stock, 111.

R.

Raddle for marking sheep, 191.
Rainfall in 1914, 153.
Rangiora, poisoning of stock by, 207.
Rape-seed, 538.
Dear seed, 259.
Raspberries, 77.
Red-birch, 90.
Red fescue, 18.
Red mite, 166.
Refuse of sodium silicate and calcium carbide, 396.
Renovating old pastures, 391.
Replacement of plants, 434.
Rhizoctonia violacea described, 325.
Rhodes-grass, 13.
Rhubarb, 182.
Rhubarb-growing, 87.
Ruakura—
Egg-production, 19.
Mangel crop, 345.
Tests of new wheats, 347.
Rust blight: inoculation of Californian thistle, 461.
Rock phosphate in New Zealand, 495.
Rose-mildew, 86.
Roses, 386, 574.

S.

St. John's wort, 415.
Sand control and utilization, 203.
San Francisco—
Butter and eggs from, 576.
New Zealand trade with, 93, 194, 297, 399, 493, 587.
Scour, Lysol for, 464.
Scum of honey, analysis of, 569.
Scutcher, automatic, 285.
Seakale, 75, 385, 482.
Seed-growers' Association, benefits to be derived from, 207.
Seed-potatoes, 583.
Seed-testing—
By American country schools, 342.
Its value to farmers, 444.
Seeds and their identification, 95, 214, 337, 438, 547.
Semi-official testing, 49, 119, 539.
Shed for lucerne-hay, 580.
Sheep—
Affected with disease, 394.
Book on, 581.
Sheep-dogs, feeding of, 429.
Shelter, 312.
Shorthorn bull "Earl of Kingston," 58.
Show dates, 48, 196, 298, 345, 490, 588.
Silage, 118, 152, 461.
Crops for, 222.
Harvesting maize for, 330.
Its advantages demonstrated, 154.
Silo, the improved all-steel, 148.
Silver-beet, 75, 396, 556.
Comparative palatability tests of five varieties, 319.
Silver-blight, 87.
Slugs, 578.
Small fruit, 76, 182, 386, 573.
Soil-fertility, economic promotion of, 208.
Soiling, a valuable crop for, 150.
Soil-treatment, 410.
Sorghum for silage, 225.
Sorrel—
Eradication, 86.
Seed-identification, 100.
Sowing and treatment of the temporary pasture, 31.
Soya beans, 418.
Spear-thistle: description of seed, 550.
Spiderwort (*Leycesteria formosa*), 532.
Spinach, 76, 182.
Spraying, 164, 374.
A practical talk on, 510.
Whale-oil soap, 166.
Spraying-compounds, tests of, 35.
Spraying-outfit, 187.
Stock—
Exported, 94, 195, 298, 400, 494, 588.
In quarantine, 94, 195, 298, 400, 494, 588.
Infested with lice, 289.
Poisoning of, by rangiora, 207.
Strangles, 460.
Strawberries, 76, 183, 386.
Blight affecting, 89.
Strengthening a lucerne-field, 413.
Subdivision of farm into smaller paddocks, advantage of, 28.
Sulphur—
For tomatoes, 90.
Its effect on plant-growth, 62.
Summer pruning, 164.
Supplies for the Navy, 186.

Suttie and Wynyard automatic scutcher, 285.
Sweet clover (*Melilotus alba*), 423.
Sweet-peas, 183.
Sweet vernal, 337.
Switzerland, dairying in, 20, 140, 242.

T.

Tall fescue, 13, 462.
Tall oat-grass, 15.
Tanning hides, 580.
Tares, 577.
At Weraroa, 258.
Tariff amendments, Canadian, 390.
Tauranga, lucerne experience at, 359.
